supporting children and their families for life

seating • changing & showering • therapy • sleeping • desks & tables • toileting & bathing • sensory • standing

## welcome

Since 1986, Smirthwaite has developed and retained its reputation as one of the leading designers & manufacturers of special needs equipment. In that time, we have dedicated ourselves to finding and providing effective solutions that offer significant benefits to babies, children & young adults in their daily lives. Working closely with children, parents, carers and therapists, we have developed a broad range of seating, standing, tables, desks, toileting, bathing, changing, showering, sleeping, therapy and sensory products.

## Innovation in our design

Special needs equipment is often overly complex, difficult to use and expensive to maintain. At Smirthwaite, we believe in well-made, easy to use products that stand the test of time. Through close consultation with leading therapists, parents and end users, we ensure our designs offer numerous clinical benefits whilst maintaining a customer-centric and innovative approach.

## Warranty & Servicing

All of our products come with a two year warranty as standard. An inspection, maintenance, service and repair facility for all Smirthwaite products is available to you, for complete peace of mind. This can be scheduled at a time that is convenient for you.

Call our Customer Services team today on **01626 835552** or e-mail **info@smirthwaite.co.uk** to book your service, inspection or repair.

## Easy to clean

All of our products are easy to clean. For instance, our wooden chairs have anti-microbial properties that ensure surfaces are kept hygienic. This helps to reduce any risk of cross infection and is especially useful in multi-user environments such as nurseries and schools.

All our upholstery is carefully chosen due to its clever material make up that contains antibacterial agents that help against the spread of MRSA, E coli and other bacteria. The Dartex upholstery on our Sleep systems, Juni's and Strato's contains Biostatic (anti-mycotic) coatings and this provides an impenetrable barrier to virus and bacteria.

# brookfield

## **Increased stability**

The Brookfield is a robust chair for children from 2 years old to young adults who require moderate levels of postural support when seated. The Brookfield has a unique moulded back as standard to promote central alignment whilst your child is seated.

## a robust and customisable chair available with a high or low back

## Greater adjustability

The Brookfield offers seat height and depth adjustability. As an additional feature, the back can also be adjusted in height. This allows even greater flexibility and enables the chair to grow with your child. The Brookfield chair comes complete with moulded back, contoured seat, a buckle pelvic strap and height adjustable armrest as standard.

## Perfect for customisation

Each child is unique, which is why the Brookfield has been carefully designed to provide your child with a high level of customisation; this means that the needs of your child are brought to the forefront. By using the chair and the accessories together we can offer a highly tailored solution.

Pictured on a new electic hi-lo base.

## Standard key features

Moulded back

Contoured seat

Buckle pelvic strap

Height adjustable arm rests

"I have always found Smirthwaite to be caring. They care about the needs of my clients, they listen to what I need and they care about providing the child with the very best solution"

Claire, Occupational Therapist South West

mannan

## corner chair

floor sitter with high levels of adaptability to develop balance as the child grows

### Floor level support

Our Corner Chair is ideal for young children from the age of 8 months who need to develop sitting balance. During floor sitting, some children are inclined to fall back or sideways if they overstretch or lose concentration. The pommel at the front is designed to keep legs abducted to promote a stable posture.

Our Corner Chair is designed to provide support at the back and sides of children to improve their sitting balance. This encourages social interaction and allows them to engage in floor-based activities without the risk of falling over.

### Maximum adjustability

The Corner Chair offers high level of adjustability in the back, side angle, side pad, headrest and pommel. This means that the chair can be positioned to suit your child's individual needs whilst also enabling the chair to easily grow with your child.

Corner Chair can be used at higher level when attached to the Ladder (Codes 4373 - 4375). Please see page 104 for details.

## Standard key features

Height and width adjustable headrest

Height and angle adjustable support pads

Adjustable pommel & lapstrap

**Optional table tray accessory** Ideal for activity work, feeding or playing

## felix

## Comfortable learning

Standard classroom chairs can be uncomfortable for a whole day of learning but the Felix comes with a clever complete seat and back cushion in one. The cushion gives that little extra padding on the seat and back. When a child is comfortable learning becomes more effective. the simple, stackable, wooden school chair with removable covers

### Simple features

The Felix is stackable - an important feature for any classroom at the end of a working day. The cushions are easily removable and wipeable and come in four vibrant colours: pink, teal, lime and black. The cushions can be easily removed, cleaned, replaced and interchanged with other chairs of the same size.

### **Classroom chair**

The Felix has been designed as an active classroom armchair. The lateral side armrests not only provide support when sitting but they also facilitate the sit to standing movement and vice-versa. The shape of the seat and back promotes good posture and the design of the chair legs provide stability and prevents tipping.

## Standard key features

Removable covers

Pelvic strap (optional)

Stackable

Anti-tip legs

# foxdenton

## Supportive and inclusive

The Foxdenton is a solid classroom chair for children from 3 years old who require minimal levels of postural support when seated. The appearance of the Foxdenton school chair has been purposely created to ensure your child feels more included in the classroom environment.

for school children with lower postural needs, who want to achieve enhanced independence within the classroom environment

## Adjustable support

Good seating posture starts with stabilising the pelvis. The Foxdenton has simple side supports that can be adjusted to keep your child's pelvis better aligned. A flip-up footrest also enables your child to sit in a more comfortable position.

## **Effective learning**

Playing, communicating, eating and carrying out desk based activities are essential elements of school life. However, for some children these activities become so much harder when they are seated in a standard classroom chair. The Foxdenton provides support when they need it the most.

#### Colours

The following colour options apply. No other options are available.

Foxdenton chair comes with adjustable side supports, flip up footrest and pelvic strap

## Standard key features

Adjustable side supports

Flip-up footrest

# hardrock

### **Robust and durable**

The Hardrock is an extremely durable and robust chair that has been specifically designed for children to young adults who are prone to rock repetitively. The Hardrock provides moderate levels of postural support and is suitable for both school and home environments.

## Tailoring to the child's needs

It can be a challenge to engage children with complex learning difficulties in educational and everyday activities. The Hardrock tackles this issue and offers a positive solution. It provides a safe environment and one that is conducive to learning. an extremely durable chair for children & young adults who are prone to rock

### **Posture matters**

The Hardrock uses an anti-thrust system and anterior pad to provide secure postural management within clearly defined boundaries. Thoracic supports and stabilisers are available for children who exhibit sideways motion.

## secure postural management within clearly defined boundaries

## Standard key features

Tray & chest pad

# Must be factory fitted at time the chair is ordered

## The perfect start

Heathfield is the perfect starter chair for children from 2 years old to young adults who require minimal levels of postural support when seated. Its unobtrusive design means that it fits well into nursery, school and home environments.

## Meeting your child's needs

The Heathfield and its many accessories work in partnership together to provide support and comfort for your child. We recognise that every child is different and the numerous configurations of the Heathfield will ensure that the chair is tailored to your child's needs. a simple chair with lots of answers. A favourite at school and home

## A natural choice

We believe in wood as a natural material for our chairs. Wood is extremely durable and it holds a contemporary beauty that makes it aesthetically pleasing whilst being environmentally friendly. Our timber comes from sustainable sources and offers thermal properties that make it warm to the touch. Antibacterial agents are added as part of our processing.

1 Available on mobile dolly base, reversible footboard and skis with full footrest

# hip spica

### Support and comfort

Our range of Hip Spica chairs has been specifically designed for children from the age of 8 months old who are in plaster casts following hip surgery and require supportive seating.

## Multi-Adjustable Hip Spica chair

This chair is available in three sizes and is ideal for children from 18 months old to young adults. It is designed for children using leg abduction splints. The front section of the chair has a storage area and easily separates from the seat for access. The back also fully reclines to achieve a more comfortable position. The chair comes complete with pelvic strap, shoulder harness and tray.

## Portable Hip Spica chair

The Portable Hip Spica features a new slimline design and can easily be dismantled so that it is simple to transport. Suitable for children aged from eight months to three years old. It is supplied with a 5-point harness and quick release tray as standard.

#### Rental scheme is available, contact us for details.

## for children in hip spica casts helping to make life easier

# indiGO

## Social integration

IndiGO is a smart and stylish chair, ideal for use by teenagers both at school and at home. While delivering the necessary comfort and postural support through its discreet built-in thoracics and lumbar prompt, the chair is also designed to integrate seamlessly into any classroom environment.

## **Promoting independence**

IndiGO has been designed for teenagers with mild to moderate postural needs, who want to achieve enhanced independence from their chair. The user operated brake, for instance, puts the user in control of applying and releasing the brakes without needing assistance instantly giving them a sense of independence.

The brake can be fitted on either the left hand or right hand side.

### **Customisable solution**

IndiGO is customisable, in either black or blue and either size 4 or size 5, to the needs of the user. For children with moderate needs, we offer a range of accessories that promote correct seating posture. A full range of accessories can be found on page 34-35. The chair has been designed with both the therapist's and the child's needs in mind. All adjustments can be made easily and mostly without tools.

## for older children in school or college

designed for teenagers with mild to moderate postural needs, who want to achieve enhanced independence

## Choice of base and back

IndiGO now has the option of an electric hi-lo base (as pictured below and right), making height adjustments simple and easy.

IndiGO has two available back sizes: a low back and a high back. The low back has been designed with social integration in mind and is best suited to a child with mild needs. The high back is more appropriate for a child who may need a harness or extra physical support.

> New Feature! The indiGo is now available on an electric hi-lo base

all dimensions in mm unless otherwise stated / see following page for chair product codes

## Standard key features

#### Lumbar support

IndiGO's adjustable lumbar prompt allows the therapist to change the shape of the seat back in this region and provide a more comfortable position for the user.

### Flip away armrest

The armrests are height adjustable and can also flip away when they are not needed. This is particularly beneficial when self-transferring from one chair to another.

### **Contoured seat**

The keystone to posture management is the pelvis and IndiGO's contoured seat helps to ensure that it is correctly positioned.

### **Thoracic support**

The thoracic supports are adjustable, with an allen key, to give the user just the amount of support they need. The lumbar is the region of the spine between the diaphragm and the pelvis, which supports the most body weight and is the most flexible.

indiGO comes with two options of back; you can choose from a high or a low back. indiGO comes complete with pelvic lap strap, flip away armrests and user operated brakes. You can also choose from two colours: black or blue.

#### **Numerous benefits**

Whether in the classroom, nursery, or at home, better posture whilst seated creates a more positive experience for your child; fine motor skills develop, confidence increases and the ability to engage and learn becomes easier. The Juni comes in three vibrant colours and the contemporary appeal helps to promote social inclusion.

Posture at its foundation

Juni's seat and backrest both provide unique contouring. This promotes better posture, gives higher levels of comfort and helps your child feel more secure and stable in the Juni. It is our vibrant chair for children who require minimal levels of postural support when seated.

#### Highly adjustable

We understand that your child's needs change during each stage of growth and development. Seat height and depth as well as armrest height can all be easily adjusted. The backrest can be reclined by 5° increments (from 95° to 105°), whilst it also features an unique built-in lumbar support.

our vibrant chair providing unique contouring, for mild to moderate postural support from 18mths old

Adjustable lumbar support

Easy leg adjustments

Lap strap

The Juni chair comes with contoured seat and backrest, built-in lumbar support, pelvic lap strap, height and depth adjustable seat, height adjustable armrests as well as angle adjustable backrest as standard.

## juni optional accessories

**Skis** CODE SK101 - SK104 Helps to stabilise and prevent chair movements

**Sliding footrest<sup>2</sup>** CODE DL111 - DL114 Provides foot support Slides backwards to give clearance to facilitate standing transfer

**Side support cushions<sup>3</sup>** Provides hip and thigh support Available in 25mm and 50mm

**Ski & footboard<sup>1</sup>** CODE SK111 - SK114 Provides foot support and offers greater stability

**Quick release tray** Patent applied for CODE TR101 - TR104 The tray is available in white

**Footrest** CODE FR051 - FR054 Available in 4 sizes

**Mobile skis** CODE DL101 - DL104 Gives clearance to facilitate standing transfer

Height adjustable push handle

CODE PH101 - PH104 Adjusts to achieve optimum push position

**4-point harness<sup>3</sup>** Provides trunk support Available in 3 colours & 4 sizes

**Pommel** Code PL111 - PL132 Encourages hip abduction

1 Raisers are also available in either 12mm (CODE: RA049 – RA052) or 24mm (CODE: RA045 – RA048)

2 Sliding footrest can only be used in conjunction with the mobile skis

3 Codes vary depending on the colour and size; please contact us directly or see our price list for all codes

### Smirthwaite's mobile base for your Juni, opens

up a whole new world.

- Manoeuvre from class to class or around the home.
- Slimline and easy to use.
- Hard wearing wheels.
- Compliments the style of your Juni.

# juni extras

We work in close collaboration with therapists, parents and children to ensure that our products meet and surpass your expectations. Through your valuable feedback the Juni also has the following optional extras: highly adjustable Juni Table, Juni Hi & Lo Boosters and Juni Hi Lo Base to overcome height issues at home, nursery & school. See all Juni accessories on pages 38 and 39.

## Juni extras to help overcome height issues at home, nursery & school

#### Juni Hi Lo Base

We understand the challenges of the classroom and home environment. Height adjustment is now easy with our Juni Hi Lo Base using the gas assisted lift. The slimline footprint of the base makes this the ideal solution to fit under most classroom desks. So now, you can use your Juni chair together with the Juni Hi Lo Base by simply attaching it to the plate on top of the base; or use the chair independently where height adjustments are not needed.

Only suitable for Juni chairs size 1 & 2.

#### Juni Hi Lo Base technical data

#### Juni Table

The Juni table offers two key benefits; the legs are adjustable so your child can work or play at the correct height and the table folds, which allows for easy storage. Available in a variety of colours this is the perfect companion to your favourite Juni chair.

### Juni table technical data

## sam

#### Facilitating postural ability

The SAM maintains and controls a symmetrical postural alignment in a stable forward leaning position. Stability is given to all body segments, starting with the pelvis as the 'keystone' of the structure.

#### **Preventing complications**

Contractures, deformity and localised high pressures are frequently associated with the inability to sit independently. The SAM assists in the prevention of these complications by giving the appropriate support and control to the body system. A child presenting with one or more of the following is suitable for the SAM system; sitting ability level 2 - 4 PPAS, athetoid movements, extensor thrust, spasticity, hypotonia or poor head control. designed for a child with little or no ability to sit independently. Modular and highly customisable

#### **Designed by Therapists**

30 years of research, clinical trials and evolution have culminated in the development of this unique seating system. A key part of the system is the forward tilting contoured seat. The 'straddle' not 'saddle' seat encourages anterior tilt of the pelvis to facilitate postural ability and to enhance function and cognitive development.

#### Forward leaning

The forward lean position is one, which has been advocated by many clinical professionals both for the able bodied, and the non-ambulant as that which promotes functional ability. It is the usual position adopted by the able-bodied person when attention to accuracy and efficiency of action is called for.

### Sam is made up by purchasing one of each of the below 1-6 making it highly customisable.

| Components               | Size 1<br>Code | Size 2<br>Code | Size 3<br>Code | Size 4<br>Code |

# samba

#### Tailored to special needs

The Samba is a versatile chair; it can cater for a wide array of conditions (from mild to complex) and can have as much or as little posture support as required by your child.

When sitting a child in our chairs we always start at the foundation, this is the pelvis. The Samba's 4-point pelvic strap is a key feature, as it allows us to anchor the pelvis in the correct anterior tilted seated position, this can help with preventing sacral sitting and is so easy to adjust.

#### Promoting postural control

If your child needs a high level of postural control we may recommend the soft cross harness. This harness promotes spine control by stabilising the shoulders, instead of the more traditional approach of using conventional laterals. For greater alignment support the Soft Cross harness can be used in conjunction with the 4-point pelvic strap.

#### A multi-height solution

The Samba provides an impressive seat height range of 295mm. The seat height ranges from 310mm – 605mm, this makes it an ideal solution for children that study, play and live in a multi-height environment.

a versatile seating system with a unique midline support, suitable for mild to complex conditions

#### **Understanding posture**

The Samba has an unique approach to managing posture. It does this effectively by using the contours of the seat and backrest, as opposed to hard intervention. The contouring can be tailored to the needs of your child by adding or taking away the foam inserts. The contours in the backrest have a subtle, but effective way of holding your child in a good mid-line position, without the intervention of using fixed laterals.

Colour Ranges
See page 129 for colour options

#### Tilt in space

If your child needs to be hoisted, the Samba can be tilted back, this is to enable a safe and controlled transfer, even if your child extends. The tilt in space is easy to operate by using the safety catch and the lever.

Controlled tilt

The powered Samba chair comes with 5-piece foam roll kit, 4-point midline pelvic strap, tray, ferndale style sandals, footrest and powered hi-low chassis.

# Must be factory fitted at the time product is ordered

# strato

#### Meeting your childs needs

Every child is different. Strato provides maximum adjustability to meet both the needs of the child and the education environment. Strato's seat, lumbar prompt, armrests and footrest, all provides a wide range of adjustments without the need for tools e.g. the gas assisted height adjustment.

The chair also has an easy to read adjustment indicator to record user settings.

## "Strato promotes a secure and stable forward leaning functional posture with an extended rather than flexed spine."

Pauline M Pope FCSP MSc BA SRP

#### Space Saving

Strato has been designed with a slim line footprint to ensure it slides neatly under desks and tables. You will be amazed at how much space you can save both in the class and at home.

#### Taking a different angle

Strato is an innovative classroom chair designed for children and young people from 2 years to young adults who are able to get in and out of their chair independently, but require minimal to moderate postural support when seated.

#### Strato seat

The uniquely contoured seat tilts forward to encourage anterior tilt of the pelvis for improved hip stability as well as trunk and lower limb alignment. The design based on the concept of 'straddle' not 'saddle', also aims to enhance function and cognitive development.

New Feature! The Strato is now available on an electric hi-lo base

Pictured: child using a Strato on the new electic hi-lo base

#### Standard key features

Pelvic strap

Contoured tilting seat

Height adjustable footrest Size 1 & 2 only

Personal pocket

# Must be factory fitted at the time the chair is ordered.

**New Feature!** The Strato is now available on an electric hi-lo base

# sunni

#### School canteen chair

Sunni is all about inclusion at meal times at school. It gives children the opportunity to eat and socialise with their friends during school break times instead of eating separately in their own chairs.

#### Working with Cerebra

It has been designed along side the Charity Cerebra. Families with a child who has a brain condition face challenges every day. Just to learn, play, make friends, enjoy and experience the world can feel difficult, sometimes impossible. But we believe challenges can be over come.

Cerebra's vision is that every family that includes a child with a brain condition will have the chance to discover a better life together.

Their mission is to listen to families that include children with brain conditions. They use what they tell them to inspire the best research and innovation. Cerebra helps them put the knowledge into practice so they can discover a better life together. Lunchtime inclusion is very important for a child's social interactions with friends.

#### **Benefits of Sunni**

- Designed to fit most canteen chairs
- Armrests fold away
- Three point harness
- Wipe clean seat pads
- High backrest for taller children
- Easy to transport and maneuvre
- Can be used at home and in school
- Available in four vibrant colours

#### **Optional footrest**

An optional footrest is available to give support to the legs when sitting at the table.

Pictured: Sunni with footrest

#### Standard key features Sunni

Quick foldaway arms

3 Point harness

32mm Padded seat

Easy to fix brackets

# zoomi/+

#### Perfectly customisable

With multiple options to cater for a variety of users, Zoomi can be uniquely configured to meet the needs of your child. We have put together 2 simple options:

- Standard Zoomi
- Zoomi +

#### **Our standard Zoomi**

The standard Zoomi is ideally suited to the classroom and home. Both the seat and footrest can be easily adjusted to the appropriate height and depth, allowing the chair to accommodate your child's needs as they grow. Also comes with lapstrap.

#### Zoomi +

Following collaboration with a number of therapists, we developed Zoomi +. Complete with low back padded cover, armrest, quick release tray, 5-point harness, flat padded seat, slotted footrest and mobile skis, it offers the ideal solution for children who require a little extra postural support and ideal for home use.

#### **Benefits of Zoomi**

- Economical seating solution
- Grows with your child
- Highly adjustable
- Tailored to the needs of your child
- Contemporary design
- Easy to clean
- Stable base with slimline footprint
- Can be used at home and in school
- Available in 3 vibrant colours

Zoomi seating system has been designed to grow with your child from 4mths to young adults

study desk

#### Perfect for school and home

Our range of desks have been designed to fit in to the school and home environment. The contemporary beauty of wood and the quality of the design enables our desks to stand the test of time.

#### **Study Desk**

The Study Desk has been cleverly designed to allow your child to take part in various activities. The desk also contains ample storage space, so books and toys can be hidden away after they have been used. The Study Desk can be used with a variety of chairs, particularly the Heathfield and the Brookfield.

1

quality of the design enables our desks to stand the test of time

#### **Personal Tilt Desk**

The Personal Tilt Desk is packed with additional features; the tilt functionality can transform the desk and allow your child to work on a variety of activities. The Personal Tilt Desk features a cut out and is highly adjustable, allowing easy access for a variety of chairs, including wheel chairs.

# hi-lo desk

#### **Quick Height Adjusting Desks**

Our range of desks have been designed to fit into the school environment with larger sized desk tops for dynamic learning.

Each of the desks have a modern metal mechanism with a turn handle to easily change the height of the table to the desired height, ideal when there are multiple people having use of the table. Each top has a sliding bottom extension to secure pens and papers from sliding off the desk when they are being used in a tilted position.

Our desks can be used with a variety of chairs and can be made to match the colour of our Juni chairs. designed to fit into the school environment with larger sized desk tops for dynamic learning

#### Soft Close Tilting Desks

The hi-lo Deluxe Tilt Desk has a metal tilting mechanism and includes soft close hinges.

Adjust the height quickly with a simple turn handle.

# tables

#### **Activity Table**

Our Activity Table is an ideal height adjustable table for younger children at nursery, school and home. The steel legs can be adjusted in height to ensure good seating posture of your child and can easily be folded for storage.

## range of tables and designs to suit most needs & requirments

#### Connectability

Our Connect range of rectangular and triangular tables have been designed to encourage good posture when your child is seated. All of the tables are adjustable in height and are extremely functional. They can be arranged into modular groups using rectangular and triangular configurations. Our Connect Tables meet a variety of different classroom needs to ensure an inclusive environment for children.

#### Nest of tables

#### CODE 2445

We understand that storage space is often at a premium. Our Work 'n' Play Tables have been designed to combat storage issues. Each pack comes with 4 different size tables and a mobile base. The tables can be used separately or in conjunction with each other. Why not use the size 4 table as a work table, the size 3 as a stool and the size 1 as a footrest?

# supro

#### Three in one

The Supro provides the option of supine, prone and vertical standing in one frame. Its design gives an angle range of 90° allowing it to achieve a horizontal and vertical position.

#### **Fully supportive**

The Supro is a unique supine stander that has been designed for children from 2 years old to young adults who need to develop and maintain their ability to weight bear. It offers full posterior body contact and is suitable for children with little or no head control.

#### Highly adjustable

The Supro offers high levels of adjustment in the knees, hips and chest to meet a wide range of postural needs. The Popliteal pads provide support behind the knee when the child is not fully able to straighten their legs.

Colour Ranges See page 129 for colour options

## a supine stander with a difference & building confidence

#### Standard key features

Footrest and cocoon sandals

Plain tray

Lateral & pelvic supports

Knee cups

Supro comes complete with upholstered board, lateral and pelvic supports, knee cups, cocoon sandals and plain tray.

# whirl

#### **Newly designed**

The new and improved Whirl enables children from 12 months old to young adults to gradually develop and maintain their ability to weight bear by promoting excellent symmetry. It is suitable for children who require lower to higher levels of postural support and control. The Whirl is ideal for both school and home environments.

#### Collaborating with you

Through working and collaborating with you, we have revolutionised the Whirl. We have adopted the essential elements of what your child needs from a stander; it provides excellent symmetry, it is extremely easy to use, it has multiple adjustments and, importantly, it is one that your child will enjoy using!

#### Supportive

The Whirl offers high levels of adjustment. Anterior, pelvic and knee supports are height, width and angle adjustable to achieve correct positioning. Pelvic obliquity can be managed through the pelvic support, which incorporates a de-rotational feature. A flip-up footrest completes the package.

Colour Ranges See page 129 for colour options a prone stander with a unique module design, promoting excellent symmetry

#### Standard key features

Whirl's come complete with anterior, pelvic and knee supports, cocoon sandals, activity tray and bowl with cover.

Whirl comes complete with anterior, pelvic and knee supports, cocoon sandal. activity tray and bowl with cover. Modular parts such as the anterior supports, de-rotational pelvic supports and shoulder harness are interchangeable on the 2 sizes of frames.

Knee supports<sup>1</sup> CODE KN006 - KN010 Height, width and depth adjustable to maintain knee position

De-rotational pelvic supports<sup>2</sup>

CODE SP003, SP004, SP022, SP023 Adjusts and maintains hip position to control obliquity and rotation into a midline position

**Anterior supports<sup>2</sup>** CODE SP001, SP002, SP020, SP021 Adjustable to maintain trunk position

**Shoulder harness<sup>2</sup>** CODE HN015 - HN018 Provides support from the rear to encourage symmetry and spinal extension

1 Available in sizes 1-5 2 Available in sizes 1 - 4

**Tray grab rail full width** CODE GB001 - GB002 Helps to stabilise limbs and trunk

Sliding adjustable footrest CODE 8351 - 8354 Used to abduct the legs

# buddy & chi chi

#### Supportive and affordable standing

Smirthwaite's new standers - Buddy and Chi Chi are an entry-level vertical stander. Designed for younger children (please use technical data for sizing) who require low to moderate levels of support whilst weight bearing. Its design allows it to be used as a hip stander suitable for targeted therapy for the development of specific areas such as trunk and shoulder girdle stability and head control.

#### Inclusive and accessible

The Buddy and Chi Chi are slimline so can be used in schools enabling your child to perform numerous activities without feeling isolated from friends. Its colour and friendly character also brightens up any room. With the entry level cost we are delivering an entry-level stander that is an accessible option to everyone.

#### Adjustability

The Buddy and Chi Chi offer numerous height and width adjustments in the chest and pelvic bands as well as additional angle adjustments in the knee supports and sandals. The Chi Chi has an additional height adjustment for taller or faster-growing children.

Buddy and Chi Chi comes complete with tray, chest band, pelvic band, knee supports and sandals. Straps and tray only available in lime.

no fuss, easy adjust entry level stander

# bath chair

#### Slimline and safe

Bath time for children is an opportunity to play with siblings and parents. Our Bath Chair's slimline design gives your child more space and freedom to bathe without restrictions. Handling the chair is also easy due to its lightweight frame.

#### Adjustable

Our Bath Chair has an easy adjustable pommel so that the legs can be positioned slightly apart for better stability. The harness also offers various adjustments to suit your child's needs.

#### Colour range

White

The Bath Chair comes with an adjustable harness and adjustable pommel as standard.

**Telescopic handrail** CODE HR012 Length range: 470-700mm Shipping weight: 1kg Holding the handrail helps to maintain seating balance

# bath corner chair

#### More support

Our Bath Corner Chair is designed for children who require a little extra help with sitting balance whilst bathing. This is achieved by its angled back and hand rail, both of which provide additional security.

#### Adjustable

Like the Bath Chair, our Bath Corner Chair provides numerous levels of adjustment. The pommel and pelvic strap can be adjusted to suit each individual child's needs.

#### Compact

Lightweight and easy to clean, the Bath Corner Chair has a perfectly compact design. This allows it to sit low in the bath enabling your child to fully extend their legs in complete comfort. Its size also enables it to fit a wide range of baths.

#### A clinical approach

The Chailey seat is an innovative design borne from a special partnership with Chailey Heritage Clinical Services. Through close consultation with Chailey's clinical specialists, this seat has been developed to provide an improved and functionally correct posture.

#### Perfect shape

The seat's contoured design gives your child greater postural support and comfort. Its shape ensures the pelvis is held securely in a position that facilitates bowel movement so that effective toileting is achieved.

#### More than one option

The Chailey seat is available in two distinct packages. The 'Toilet seat' package which can be used in conjunction with a standard toilet. The 'Mobile' package stainless steel frame which can be used for both toileting and showering.

#### Colour

White

#### The Chailey is available in a choice of two packages:

- Chailey toilet seat package comes with the mounting bracket and full harness as standard. The seat can be used in conjunction with a standard toilet.
- Chailey mobile stainless steel toileting and showering package comes with a stainless steel mobile frame, footrest and full harness. Ideal solution for toileting and showering. For added convenience the frame folds for easy storage.

# potty chair

#### **Fully supportive**

Our Potty Chair has been designed specifically for young children who require assistance with sitting balance and need more reassurance when toileting. Its freestanding and highly supportive design means that it fits well in nursery, school and home environments. The sides of the Potty Chair provide your child with the privacy they sometimes need whilst toileting. Holding the handrail helps to maintain seating balance.

#### Potty aperture

Many potties have a round aperture which can make toileting extremely difficult for children with slightly narrow hips. Our Potty Chair's apperture has been designed to ensure improved comfort and toileting performance.

## easi-lift changing bench

#### No floor fixing

Most height-adjustable changing tables require fitting to both the wall and floor. The Easi-Lift Changing Bench has been designed to require wall fixing only. This is particularly beneficial where the type of floor, surface pipe work or cabling prevent floor installation.

#### **Reduces back injury**

The Easi-Lift Changing Bench has a travel range of 500mm to meet varying needs and the bench can easily be set to a safe and suitable working height to help prevent the risk of back injury to the carer.

#### Space saving design

Easi-Lift Changing Bench is a compact, electrically operated wall-mounted changing bench designed to fit in a dry room environment where space is at a minimum, folding away to save space after use.

#### Technical data

- No floor fixing required
- Weight capacity of 150kg
- Travel range of 500mm
- Protrudes 305mm from the wall when stored

## easi-lift shower stretcher

#### Easy adjustment

The Easi-Lift Shower Stretcher has been designed to help you move the user up and down with ease whilst they are on the stretcher. It is electronically operated with a height range of 500mm, which allows a safe and suitable working height to prevent the risk of back injury to the carer.

#### Contemporary design

The unobtrusive and neutral design of the Easi-Lift Shower Stretcher allows it to fit into a wide range of environments, especially with it's stainless steel and powder coated frame. The need for floor fixing has been eliminated making it the perfect choice for areas where the floor type, surface pipe work or cabling prevent floor installation.

#### Easy storage

The compact design coupled with the ability to fold the stretcher away when it is not in use makes this the ideal product for times when space is limited.

#### **Technical data**

- No floor fixing required
- Weight capacity of 200kg
- Travel range of 500mm

## shower stretcher fixed height

#### **Economical solution**

The Shower Stretcher Fixed Height is our entry-level product and an economical washing and showering solution for the user. This durable and slimline product represents real value for money.

#### Makes bathing easier

The Shower Stretcher Fixed Height is designed to allow the washing or showering of the user whilst in a horizontal position. It can be fixed directly above a bath making it the perfect solution for the home.

#### Added headrest

The Shower Stretcher Fixed Height, along with all of our shower stretchers, can be enhanced with the optional integral vinyl headrest. The headrest features a paddle lift adjustment, which allows it to be locked securely into the desired position.

#### Technical data

- No floor fixing required
- Permanently fixed at the desired height
- Weight capacity of 200kg

## shower stretcher adjustable

#### Height adjustable

The Shower Stretcher Adjustable Height allows you to manually set the height of the stretcher to the desired position, simply by turning the handle clockwise to lower and anti-clockwise to elevate.

#### Wall mounted

The Shower Stretcher Adjustable Height is wall mounted and does not require fixing to the floor. Its stainless steel frame and vinyl cover makes it perfect for any room environment.

#### Space saver

The Shower Stretcher Adjustable Height is ideal for rooms that have limited space. The fold-away functionality of the stretcher allows it to be stored away when it is not being used, allowing maximum use of room space.

#### Technical data

- No floor fixing required
- Weight capacity of 200kg
- Travel range of 350mm
- Height range is manually operated

### hi-riser Robust yet slimlime

Hi-Riser is an electrically operated wall-mounted changing table that is suitable for children and adults of up to 200kg. Despite its robust structure, the Hi-Riser has a slimline design that ensures it fits easily into most environments.

#### **Easy transfers**

The Hi-Riser has been designed so that it can be used with most mobile or ceiling hoists. The unique safety side rail stows away, streamlining access for transfers from a wheelchair, shower and toileting chair. The Hi-Riser also benefits from an impressive travel range of 600mm.

#### **Providing options**

We understand that every need is different, which is why the Hi-riser comes in seven different sizes that cater from young children through to adults. The Hi-Riser comes in a cream powder coated frame for dry environments or stainless steel frame for damp environments.

#### Technical data

- Electrically operated
- Wall and floor mounted
- Wall mounting kit included
- Weight capacity of 200kg
- Impressive travel range of 600mm

## hi-riser shower stretcher

#### Two in one

The Hi-Riser shower stretcher is an easy to use two-in-one wall and floor mounted showering and changing table. Its robust yet slimline design makes it suitable for children and adults of up to 150kg. Its versatility means it offers the ideal solution for swimming, hydrotherapy and bathroom environments.

#### Comfortable & hygienic

The Hi-Riser Shower Stretcher has been designed with reinforced PVC, making it highly supportive yet soft and comfortable to lie on. Its stainless steel frame facilitates easy cleaning, making it a perfect choice for multi-user environments.

#### **Technical data**

- Handset works safely in wet room environments
- Drainage pipe & fasteners included
- Wall and floor mounted
- Weight capacity of 150kg
- Travel range of 570mm
- Protrudes 300mm from the wall when stored

### highly supportive yet soft and comfortable for children and adults up to 150kg

#### Quick drainage

The Hi-Riser Shower Stretcher is supplied with flexible pipe work to use with a suitable floor drain or, alternatively, it can be plumbed in. Water can easily be drained away using the drainage pipe, which can also be detached for cleaning purposes.

Electrically operated

Folds away to save space

# mobi changer

#### Room to room

The Mobi Changer is a fully mobile changing table that requires no installation or fixing. Its compact and slimline design means it can be easily manoeuvred from room to room, offering an extremely cost effective option for multi-transfer or multi-user environments.

#### Height adjustable

The electrically operated Mobi Changer provides an excellent travel range of 480mm and can be lowered and elevated at the touch of a button. Safe and suitable working heights can be easily achieved which helps prevent the risk of back injury to the carer.

#### Easy transfers

The Mobi Changer has been designed to ensure sufficient clearance for a wide number of hoists. Its mobility and unique stowaway side rails enable safe and easy handling. Whether you are transferring from a bed, wheelchair or toileting chair, the Mobi Changer is the perfect solution.

#### **Technical data**

- Cream powder coated frame for dry rooms
- Stainless steel for damp room environments
- Weight capacity of 227kg
- Travel range of 480mm
- Comes with a wall mounted charger and 2 batteries

## mobi heavy duty changer

#### Meeting bariatric needs

The Mobi Heavy Duty Changer has been designed to meet the needs of bariatric users. Its powerful 12K Newton motor, coupled with the extra wide mattress platform, makes it the ideal solution.

#### Manoeuvrability

The benefit of the Mobi range of products is that they do not require any wall mounting or floor fixing. They are easy to manoeuvre which means that the user can be transported from room to room with no trouble (door opening has to be 1100mm or more).

#### Height adjustable

The Mobi Heavy Duty Changer is electronically operated, which makes adjusting the height of the table simple, this is beneficial for both the carer and user.

#### Technical data

- No installation required
- Electronically operated
- Dry room environments only
- Weight capacity of 500kg
- Travel range of 370mm
- Wall mounted charger and 2 batteries

## mobi shower trolley

#### Safe showering

For many children and adults, conventional methods of bathing and showering can be difficult and even hazardous. The Mobi Shower Trolley is a powered, height-adjustable shower trolley specifically designed to enable the user to be safely and easily washed or showered by their carer.

#### **Reduces back injury**

The Mobi Shower Trolley offers a range of height adjustments to enable the carer to shower and change the user at a safe and suitable working height. This reduces the risk of back injury for the carer.

#### Stowaway side rails

The Mobi Shower Trolley has been designed with two unique safety side rails that can be easily stowed away beneath the trolley. This allows maximum clearance for safe, easy transfer and use.

#### **Technical data**

- No installation required
- Length of table is 1800mm
- Weight capacity of 220kg
- Travel range of 460mm

# changing & showering

Headrest CODE Please refer to product

Safety guard CODE ECSG01

Our 3 shower stretcher products can all be enhanced with the optional integral vinyl headrest. The headrest must be ordered at the same time the stretcher is ordered and cannot be fitted retrospectively. Our frames have been designed with the ability to have the headrest at each end of the stretcher (please specify which end, at point of order). The headrest features a paddle lift adjustment, which allows it to be locked securely in the desired position. Enhance the safety of any of the 3 shower stretcher products with the safety guard accessory. The safety guard must be ordered at the same time the stretcher is ordered and cannot be fitted retrospectively. The safety guard locks securely into position and provides extra support whilst the user is on the stretcher. Please note that the safety guard does not stow away (as per the Mobi changer). The safety guard is one size in length (1400mm).

Angled back CODE BE002 (size 1), BE003 (size 2) and BE004 (size 3)

The angled back is only available for the powder coated Mobi changer and must be requested when placing an order, as it cannot be fitted retrospectively.

Additional charging station & battery CODE CB008 (charger & battery) CODE BE005 (battery only)

#### Plinths

Our highly popular Stacking Plinths can be used for individual or group work. For areas that are limited in space, our Folding Plinths provide an ideal storage solution.

#### Customise

To meet your child's needs you can customise your Plinth with a variety of accessories. These are all aimed at supporting your child's individual therapy programme.

#### Cut-out

The option to have cut-outs on either side of your Plinth will give your child more room and better alignment. Cut-outs in a number of sizes are available on request.

**Twist 'n' play wall mounted** CODE 42105 (height 1100mm; depth 180mm; width 420mm)

#### Giraffe

CODE 42201

Our Giraffe<sup>1</sup> encourages children to refine their motor and handling skills. Place one of the colourful balls into the Giraffe's mouth and make a guess at which of its 4 legs the ball will come out of. Height 1800mm Width 1030mm

Width 1030mm Depth 670mm Product Weight 23.5kg

### Clown

CODE 42101

Our Clown introduces fun whilst learning. Place the balls into the colourful rings and watch and listen to them race to the bottom. This way of learning encourages motor skills, tracking, anticipation and turn taking. Height 1260mm Width 1110mm Depth 670mm Product Weight 22kg

# body roller & bumper

#### **Rolling to relax**

Our Body Roller provides deep pressure therapy as the child crawls between the rollers. The rollers are fully padded which helps your child to relax. The tension setting can easily be adjusted. Available in 3 colours, red, green and blue<sup>1</sup>.

#### **Building body strength**

Our Body Bumper helps to build upper body strength. By kneeling in front of the bumper and rolling it back and forth it helps to exercise arms and shoulders. Available in 3 colours, red, green and blue<sup>2</sup>.

1 Body Roller in Red (CODE 43211), Green (CODE 43221), Blue (CODE 43231). L 1000mm x W 750mm x H 580mm Max user weight 136kg Product weight 30kg 2 Body Bumper in Red (CODE 43111), Green (CODE 43121), Blue (CODE 43131) L 560mm x W 470mm x H 580mm Max user weight 136kg Product weight 9kg

# dreamswing

#### CODES 41220, 41225, 41230, 41240

Children love the Dreamswing as a cosy retreat, which affords the opportunity to rest and relax. They will particularly turn to the swing to get some rest in stressful situations. The Dreamswing promotes tactile, vestibular and proprioceptive perception and it encourages children to conduct their own activities. It is easy to adapt the Dreamswing to the size and weight of the user. The height can be adjusted with a simple hand movement and using the special harness, new seating and reclining positions can be set. This makes the Dreamswing extremely versatile, suitable for people with allergies and is available in the following sizes:

- L, XL, XXL, XXXL
- Optional footrests available
- Comes with practical accessories:
- A. Height adjustment with rotary swivel
- B. Universal rope bag

#### www.smirthwaite.co.uk/dream-swing

# frames & swings

vestibular and proprioceptive stimulation can be achieved with our popular swings

#### Popular frames

Our popular selection of free-standing suspension systems are designed to be used in conjunction with our sensory swings, platforms and bolsters. They eliminate the need for permanent structural fixings, are made of tubular steel and can be purchased with bright, colourful padding and mats.

#### Range of swings

Our range of bolsters and swings are easy to attach to our frames and can be used as part of your child's sensory programme. For instance, our Flexi Bolster provides vestibular and proprioceptive stimulation through gentle rocking or pushing the bolster.

The A Frame has been designed to handle a weight capacity of 300 kg, this means that you can attach two of our swings or bolsters and use them at the same time. Both the C and O Frames can support rigorous activity and can be fixed to the floor if required.

# ramp & scooter

#### Making sensory fun

Our Ramp & Scooter set make sensory therapy fun and engaging. It can be used in sensory integration sessions to increase the different sensory levels of children. It has been designed to stimulate your child and make their sensory sessions enjoyable.

The set comprises of two varieties of ramps; one of the ramps is angled whereas the other is slightly convexed. The scooter has a flat padded surface that makes it easier for your child to lie in a prone position.

Our Ramp & Scooter set can also be used for proprioception activity, as well as refining motor co-ordination skills. The set comes with 1 x size 2 scooter as standard.

#### sensory scooter

#### Stimulating the senses

Our Sensory Scooters can be used in sensory therapy sessions. The scooters can be used in a variety of ways and can help to develop bilateral motor co-ordination skills.

The Rocking Horse comes with a pelvic strap. Can be used with a harness and pommel (purchased separately)

## developing core balance and social skills

# rokka3in1

#### Rokka

CODE ROK001

The Rokka is a fishing boat, a see-saw and a den. Turned upside down, it is a table and two chairs for eating or drawing, or a trip-trap bridge for some rudimentary stair-training. Made from quality birch plywood, it withstands the hardest wear.

#### Theatre pack\*

CODE ROK003

The Theatre Pack taps into children's creativity and into their appetite for inventing stories, plots and shows. As well as helping in boosting their confidence it does wonders for their social development. Turn your Rokka on its side and add The Theatre Pack to make a splendid theatre. It comes with grand curtains and a colourful beach scene backdrop.

buy online

## Kitchen pack\*

Children love to imitate and join in with their parents. Turn your Rokka on its side, add The Kitchen Pack and everything that children have seen in the kitchen is represented here: an oven which opens, a washing machine, a cooker with knobs that turn, a sink with hot and cold taps, shelves for storage and holes in which utensils can be slotted and placed.

Rokka technical data Height 420mm Length 104mm Depth 370mm Max user weight 100kg Product weight 9kg (Rokka set up as a table)

#### \*The Kitchen and Theatre packs are sold separately and do not include the main Rokka

## introducing sleep systems Sleep systems

Sleep systems are not designed to stop the child or adult's movements, but simply to provide different levels of support and prevent the user from getting stuck in harmful positions during the night. Fundamentally, sleep systems should enable the user to enjoy a restful night's sleep. To achieve this, we offer two varieties of sleep system:

**Little Dots** - a supportive system for babies up to 12 months old.

**Snoooooze** - a flexible system for children through to adults.

#### Key benefits

Our sleep systems are flexible and highly customisable to the needs of your child or adult. They are adjustable in size (filling can be added or removed) so they grow with your child, are easily portable and have been designed in conjunction with health professionals and carers. a range to promote integrated posture, for a better night's sleep. Add to your daytime routine for 24hr postural care

We recognise that everyone is different, which is why we have developed and designed systems that:

- Maximise your patient's potential
- Promote postural integrity
- Encourage better sleep patterns
- Work against postural deterioration
- Offer high levels of compliance
- Improve positioning
- Give the carer respite
- Are easily portable
- Enable adjustability
- Are easy to wash & clean

Chidren spend approx 1/3 of their time in bed, 24 hr postural management is key to their development

#### Early intervention

Early intervention is essential for ensuring that your child maximises their social and educational developmental potential. It is vital that your child's needs are identified as early as possible to ensure the best possible quality of life.

#### Supportive Little Dots

Little Dots has been designed for new born babies and children up to the age of 12 months old. A highly supportive system, its Segmented Horseshoe and Wedges, dressed with the Fleece Overlay, establishes a profiled shape.

#### Adjusting for growth

For young children with low body mass and control, it is important to provide cushioning that is volume adjustable. Little Dots cushions allow you to add and remove filling which, in turn, lets the system grow with your child. Little Dots is lightweight, very portable and offers a highly customisable solution to your child's needs.

Mattress sheet CODE 9001 Hook & loop receptive sheet Fits standard single mattress, custom sizes available

#### Flexible Snoooooze

This flexible sleep system is designed for children and adults. It is lightweight, highly portable and highly adjustable to cater for the growth and the needs of your child.

#### Support in 3 lying positions

The Snoooooze system supports the user in supine (on their back), side and semi-prone lying positions. This key feature enables us to accommodate and correctly position posture overnight, whilst maintaining a high level of comfort.

#### Supine lying

To ensure correct positioning both during the day and night, we stabilise the pelvis. The pelvis is the foundation of good posture, and is therefore the first area we evaluate when conducting an assessment. Using a component like the W Leg Trough, we aim to draw the legs into mid-line.

## supine positioning components

**T-roll (size 1 & 2)** Inhibits adduction Supports the user's legs in abduction

W leg trough (size 1 - 5) Pictured using without the wrap Positions the user's legs Prevents rotation and risk of dislocation

Standard W leg trough with wrap (size 1 - 5) The adjustable wrap provides extra support for the abducted legs

Twin leg wedge (size 1 - 3)

Gives leg support and provides support behind the knee

**Foot support** Positions and supports the feet in alignment at various angles

Foot support See product opposite Roll (size 1 & 2) Use as a head support or behind the knees

#### Side lying

The Body roll has heralded a new stage in side lying, and can help achieve an excellent trunk and leg position for both left and right side lying. It is most effective for when the trunk has shortening sides and the legs are windswept. Alignment of the legs is achieved with a Pillow between the user's legs. The final key of achieving a good posture is to support and position the head.

#### Semi prone lying

Evolved from our work in side lying, semi prone lying is best achieved through use of our Body Roll. This very 'cuddleable' roll effectively supports the user's head and knees at the same time. The key benefit of the Snoooooze sleep system is that is extremely customisable, so that the user can sleep in a position that is suitable for his or her needs.

#### Sleep for everyone

When the user struggles to sleep, it has a direct impact on the sleep patterns of every family member. Parents and siblings can be left exhausted, unable to think clearly and struggling to cope with their daily activities. By ensuring that the user has a good night's sleep, it also means that you and your family will enjoy the many benefits of sleep.

## side lying & semi prone components

**Pillow size (1 & 2)** Very versatile Use as a head support or between the legs in side lying

Banana cushion (size 1 & 2)

Head support in side lying Supports feet or other parts of the body

Body roll (size 1, 2 & 3) Supports head, trunk and legs Pillow size (1 & 2) See product opposite

Horseshoe (little dots) Use between the legs in side lying Use as a full supine support

Roll (size 1 & 2) Use as a head, knees or back support Curved wedge (3 sizes) Supports the body or other components

Star head support little dots (size 1 & 2) Use as a head support with profiling points

## snoooooze components

**T-roll** Paediatric and adult size Inhibits adduction Supports your child's legs in abduction

**Body roll** Paediatric and adult size Provides the ideal positioning to enable side lying, giving support to head, trunk and leg

Roll Paediatric and junior size Supports down the back or behind the knees

Horseshoe Paediatric and adult size Encourages alignment and is suitable for supine and side positioning

W leg trough with wrap Paediatric to adult size The adjustable wrap provides extra support for the legs

**Twin leg wedge** Paediatric to small adult Gives leg support and provides support behind the knee

**Foot support** Paediatric Positions and supports the feet in alignment at various angles

Mattress sheet (Cot, single and double size) Hook & loop receptive sheet Fits standard single mattress, custom sizes available

**Pillow** Paediatric to small adult Very versatile Use as a head support or between the legs in side lying

Banana cushion Paediatric to adult Versatile component that can be used for most parts of your child's body

**Star head support** Paediatric and junior size Gives head support Points of the Star can be folded for angled support

**Curved wedge** Paediatric to small adult Use either directly supporting the body or other components

Wedge Paediatric Supports head in mid-line

**Tri-fold** Paediatric to adult Use either directly supporting the body or other components

## soft buy online protection helmets

soft, cool head protection for active people and people with special needs

# An non-stigmatizing solution that are loved by people with special needs.

Ribcap is committed to innovation in design and development of products that reduce the risk of traumatic brain injury for people with medical challenges, special needs, and others at risk during work and play activities. Ribcap designs products based on feedback from parents, patients and medical experts in traumatic brain injury risk reduction.

## Protect yourself: soft protection helmets for your everyday life and special needs!

## ate forms

# helmets

#### **Head Protection**

We are please to offer a new exciting range of helmets from ATO FORM gmbh. For more than 30 years, ATO FORM gmbh is known for giving professional/competitive advice and its excellent knowledge/experience as a Specialist of rehabilitation and orthopedic aids, especially in the field of children rehabilitation.

#### www.smirthwaite.co.uk/helmets

#### Ordering a helmet

When ordering a helmet you can either download the ATO Form order forms online or call Smirthwaite customer services for a quote.

We can create a bespoke helmet by these easy stages (please allow a longer lead time start to finish for bespoke):

1. Choose your helmet, colour of leather or cotton if applicable, strap fastening (click or velcro) and any extra accessories (i.e. front bumper).

2. Send us your child's head measurements using the easy to follow guide (\*example of measurements). For advise on what measurements are required please contact our Customer Services team.

3. A trial helmet will be sent for you to try, this is then returned to us with any noted amendments required.

4. We will send you your finished bespoke helmet.

\*example of measurements and a bespoke helmet
